Created as a result of the 2003 First Ministers’ Health Accord, and following the recommendations of the Romanow and Kirby Reports, the Health Council of Canada is mandated to monitor and report on the progress of health care renewal in Canada. Chaired by Michael Decker, the 26 Council members were named by the provinces, territories and the Government of Canada. Their expertise and broad experience includes the areas of community care, aboriginal health, health education and administration, finance, medicine and pharmacology. The Health Council of Canada held its inaugural meeting in January 2004.

As Chair of the Wait Times Working Group, Dr. McMurtry coordinated the proposed analysis of wait time management as well as the recommendations to improve effective and consistent wait time management programs across the country. He also served on the Strategic Plan Task Force as well as the Framework and Monitoring Progress Committee.
